Invitation

## HOW Multiplex Technology promote BIOMARKER DISCOVERY

**Merck Invites you for the Seminar on How Multiplex  
technologies promote Biomarker Discovery**

**Date : 30<sup>th</sup> August 2018**

**Time : 11:00 AM Onwards**

**Venue : THSTI, Faridabad, Haryana**

Biomarkers are physiological signals of states of health and illness-molecules that can indicate the presence of specific diseases. Their discovery has become an incredibly important area of medical research. They can indicate cancer, infection, inflammation, organ failure - practically any condition.

Merck Offers Fit For Purpose Immunoassay Platforms to suite the need of the Research by offering low to high throughput assays and Instrumentations. Choose our Platform from any of the Immunoassays and aid your Biomarker Research.

☛ Milliplex MAP Assays

☛ SMC (Single Molecule Counting Assays)

☛ ELISA

☛ Custom Assay Development

☛ RIA
