

(An Autonomous Institute of the Department of Biotechnology, Govt. of India)
496, Udyog Vihar Phase III, Gurgaon – 122 016

WALK-IN-INTERVIEW FOR CLINICAL POSITIONS

Recruitment Notice No. THS / RN /09 / 2014

- a) Translational Health Science and Technology Institute (THSTI) is an autonomous Institute of the Department of Biotechnology under the Ministry of Science and Technology, Govt. of India. THSTI is developed as a part of the interdisciplinary NCR Biotech Science Cluster to be located at Faridabad, in the National Capital Region. THSTI is designed to be a dynamic, interactive organization with a mission to conduct innovative translational research and to develop research collaborations across disciplines and professions to translate concepts into tangible products to improve human health. We will be moving to our permanent laboratories in Faridabad shortly. The interim laboratories of the centre are functioning from Gurgaon in Haryana.
- b) THSTI has set up niche centres for research in areas relevant to planned translational work. They are: Vaccine and Infectious Disease Research Centre (VIDRC), Paediatric Biology Centre (PBC), Centre for Biodesign (CBD), Drug Discovery Research Centre (DDRC), Centre of Human Microbial Ecology (CHME) and Policy Centre for Biomedical Research (PCBR). Clinical Development Service Agency (CDSA) and the National Biodesign Alliance (NBA) are THSTI's extramural centres.
- c) This advertisement is to fill up vacancies of THSTI/RCB under the projects as mentioned below:

Project Code	Project Name	Project Details
01	Neonatal Immune Profiles: infections and toxicants	This project is to standardise immunophenotyping and phospho – flow assays between Stanford & THSTI – NII, and to collect data on 50 umbilical cord blood samples from each site. Examine the functional status of cytokine signalling pathways in cord blood B cells from the two cohorts in response to a panel of cytokines. Determining whether the two cohorts differ in the frequencies of any other sub- population of blood immune cells. The study will be conducted at Safdarjung hospital
02	Glue Grant project	THSTI in collaboration with Regional Centre for Biotechnology

		and other DBT institutions has started a project “Glue Grant project” at General Hospital, Gurgaon with the broad aim to conduct human research while reasonably supporting available clinical services at GCH; strengthening the clinical care of patients admitted to their departments of Paediatrics, Medicine and Neurosciences, and to facilitate their preparedness for high quality clinical and translational research.
03	A pregnancy and infant cohort to study preterm birth and vaginal microbiome	The aim is to set up a hospital-based cohort of (a) pregnant women starting from the first trimester, each of whom will be followed up until delivery (b) the children born to these women. (c) Composition and dynamics of vaginal microbiomes of pregnant women will be measured. The clinical sites are Gurgaon General Hospital and Safdarjung Hospital. Vacancies of Clinical and/or laboratory based positions are likely to arise periodically in various projects as shown above. These vacancies will be notified in the THSTI website only.

d) Interested candidates, fulfilling the criteria as mentioned in paragraph (e), may walk-in for interview as per the details mentioned below.

Name of Post	Centre	Project Code	Date and Time for walk-in-interview
