

(An Autonomous Institute of the Department of Biotechnology, Govt. of India)

NCR Biotech Science Cluster, 3rd Milestone, Faridabad – Gurugram Expressway, P.O. Box No. 04, Faridabad - 121001

Recruitment notice no.: THS-C/RN/18/2023

1. Translational Health Science and Technology Institute (THSTI) is an autonomous Institute of the Department of Biotechnology, Ministry of Science and Technology, Govt. of India. The institute is an integral part of the interdisciplinary NCR Biotech Science Cluster located at Faridabad, and is designed as a dynamic, interactive organization with the mission to conductinnovative translational research and to develop research collaborations across disciplines and professions to translate concepts into products to improve human health.

Dated: 30 October 2023

- 2. THSTI has built several inter-institutional collaborations and connectivity with industrysupported by well-trained teams of research and laboratory staff. This foundation has helped pursuit of thematic research programmes which can be broadly categorized as, (a) Infectious diseases and Immunology (b) Maternal and Child Health, (c) Non-communicable disease (d) Multidisciplinary clinical and translational research. These will be strengthened by four corefacilities viz. Small Animal Facility, Data Management Centre, Biorepository and Bioassay Laboratory that will serve not only the research programmes of THSTI, but also the National Capital Region Biotech Science Cluster and other academic and industrial partners.
- 3. This recruitment is to fill up the vacancies for project positions at Clinical Development Services Agency (CDSA) center. CDSA is a niche center of THSTI established to facilitate development of affordable healthcare products for public health diseases. It is the only public Centre in the country created with a mandate to support and nurture cost-effective, high quality, not-for-profit technology-based preclinical and clinical product developmentas well as support clinical research conducted by public agencies. It works towards development of an eco-system for training and learning and work with public sector institutions, and small and medium enterprises (SME) to translate innovative technologies into medical products for public good.

The main objectives of CDSA are:

- As an academic Clinical Research Unit, to undertake & provide end -to- end clinical study support for investigators and SMEs in study planning, set up, conduct: project management, monitoring, data management, safety reporting, analysis and report writing
- b) Build research capacity and capability through high quality training in the area of clinical development/trials and regulation
- c) Support and strengthen clinical research environment in the country
- Regulatory science and policy support: provide tools and approaches to support researchers, regulators, health policy makers & industry

Applications are invited from eligible candidates to fill up the following positions:

| 1 Name of the (No. of post) | Program Manager, (01 Post) |
|--|---|
| Name of the proj | Diet and Biomarkers Survey in India (DABS-I) |
| Emoluments | Rs. 1,00,000 (Consolidated) monthly |
| Age | Up to 45 years |
| Employment | Contractual |
| Duration | One year |
| Location | CDSA, THSTI, NCR, Biotech Science Cluster, Faridabad |
| Minimum Educational Qualification Experience | Essential: MBBS/BDS/ BAMS/ BHMS/ BPT or equivalent degree from MCI recognised university with at least 4 years work experience in monitoring and/ or management of public health program or community-based research projects and at least 2 years in a lead role OR |
| | MPH/ PhD in related discipline will be an added advantage for the position. Candidates with experience in field monitoring or management of community-based studies will be preferred Candidates with some basic data analysis skills using a statistical software will be advantageous |
| Job Profile | Lead supervisor and nodal point for ICMR and other agencies involved in the diet survey with a strong academic and experience in planning and implementing public health research projects. • Coordinate and oversee the quality of all concurrent monitoring activities including monitoring timelines and deliverables, tracking and reporting of consenting, sample collection, processing and shipment activity. • Review the DABS documents relevant to the CDSA-THSTI SOW and developing study related materials such as Clinical Monitoring Plans, monitoring reports/ checklist, SOPs, training material and related documents Collate the monthly reports and submission to SRL, survey agency and sponsor. • Work with Zonal leads closely, track the monitoring activities and reporting and monthly reports submission to ICMR. • Supervise, mentor and track performance of DABS monitoring teams. • On-site accompanied and/or oversight visits to PSUs/ collection centres across all six nutrition zones. • Manage operational aspects for implementation of concurrent |

| | monitoring activities from systym and processes set-up, hiring and training of monitoring team, ensuring compliance with SOPs/ plans. • Establish an effective communication plan with clear escalation matrix and ensure its compliance throughout. • Manage study-related vendors and serve as the nodal point for contracted yendors, identifying potential ricks and resolving issues with |
|--|---|
| | contracted vendors, identifying potential risks and resolving issues with vendors; establishing vendor management plans and reviewing quality metrics |
| | Reviewing monitoring reports, protocol deviations and line listings to ensure reliable quality data are delivered. Coordination with ICMR, oversight for preparation and execution of monitoring as per agreed schedule and field movement plan, track the DABS progress in active zone / region. Coordination with finance department for management of budget |
| | sanctioned to CDSA-THSTI for the concurrent monitoring, tracking reimbursements as well as appropriate utilization and accountability of the expenses. • Work with Clinical Portfolio Management and other internal departments |
| | on their requirements as and when required. |
| Skills Name of the past (No. | Thorough understanding of the SoW, tools and systems developed by CDSA to support concurrent monitoring. Strong academic and experience in planning and implementing public health research projects. Leadership skills that include the ability to build effective project teams, ability to motivate others, delegation, drive and timely/ quality decision making. Personal qualities that include the ability to gain trust and confidence with stakeholders. Operational skills including focus and commitment to quality management and problem solving. Influencing skills including negotiation and teamwork. Effective communication skills that Include the provision of timely and accurate information to stakeholders. Ability to develop and implement clinical research monitoring plans, Sops, database concepts, and formats. Ability to remain flexible as projects and priorities change and work independently with minimal guidance as well as collaboratively within a team setting. Excellent Computer skills (MS Word, e-mail, excel, internet). Ability to develop technical reports and manuscripts |
| Name of the post (No. of post) | Associate Program Manager, (03 post) |
| Name of the project | Diet and Biomarkers Survey in India (DABS-I) |
| Emoluments | Rs. 80,000 (Consolidated) monthly |
| Age | Up to 35 years |
| Employment | Contractual |
| Duration | One Year |
| Location | CDSA, THSTI, NCR, Biotech Science Cluster, Faridabad |
| Minimum Educational Qualification and Experience | MBBS/BDS/ BAMS/ BHMS/ BPT or equivalent degree from MCI recognised university with at least 3 years work experience in monitoring and/ or management of public health program or community-based research |

| | projects OR | | | |
|---------------------|--|--|--|--|
| | Master's degree in clinical research/public health/ pharmacy or related discipline from a recognised university with at least 4 years work experience in monitoring and/ or management of public health program or community-based research projects OR | | | |
| | Master's degree in life sciences from a recognised university with at least 5 years work experience in monitoring and/ or management of public health program or community-based research projects | | | |
| | MPH in related discipline will be an added advantage for the position. Candidates with experience in field monitoring or management of community-based studies will be preferred | | | |
| | Candidates with some basic data analysis skills using a statistical software will be advantageous | | | |
| Professional skills | Thorough understanding of the SoW, tools and systems developed by CDSA-THSTI to support concurrent monitoring. Strong and one of the SoW, tools and systems developed by CDSA-THSTI to support concurrent monitoring. | | | |
| | Strong academic and experience in planning and implementing public health research projects. | | | |
| | Leadership skills that include ability to build effective project teams, ability to motivate others, delegation, drive and timely/ quality decision making. Operational skills including focus and commitment to quality management | | | |
